VOL. XI. No. 4218.

8 PAGES.—HONOLULU, TERRITORY OF HAWAII, TUESDAY, JANUARY 26, 1909.—8 PAGES.

PRICE 5 CENTS.

Nearly everyone reads a newspaper. About all the particular and discerning people in Honolulu read the Bulletin. A Want Ad. in a paper like the Bulletin is sure to reach people that can and will buy.

CALIFORNIANS COUNSELED TO KEEP QUIET ENGINEERS STAND BY AMERICAN SHIPS

Governor Advocates Permanent Register

"We are thinking of recommending the creation of what might be called a Great Register," said Governor Frear this noon. "That is a permanent register of voters. Instead of making a complete new register every two years we could have a permanent register, so that all the boards of registration would have to do would be to make the necessary changes.

"There are several advantages about this plan. In the first place it will save thousands of dollars, which we would otherwise have to pay to do the same work over and over again. In the second place, it would be a great convenience for the voters, as they will not be required to register every two years. In the third place it will facilitate the operation of the primary election law, if one should be passed, because the primary elections will have to be held some time before the general elections, and in order to give every person a chance to vote, we should have to take the old register and the new one as far as it had gone, and it would not be complete.

"We are trying to devise every means we can think of to economize without impairing the efficiency of the Government. We will have to do so to make the financial ends meet. If we can save something it will be very desirable, as there are plenty of good uses for the development of the Territory to which the money can be put, rather than to be used to preserve offices for the keeping of the machinery of the Government going."

MARINE ENGINEERS CABLE TO KUHIO

The local branch of the Marine Engineers' Beneficial Association took official action last evening in opposing the proposed suspension of the coastwise shipping laws in their application to Hawaii.

A cablegram voicing the sentiment of the engineers was forwarded to Delegate Kuhl, to United States Senator Perkins, and to the national representative of the Marine Engineers at Washington.

The action of the local branch was unanimous.

With the strong connections of the organization throughout the United States, the petition of the local citizens will be a powerful lever to prevent any action intended to overthrow the present laws. The resolution setting forth the sentiments of the engineers denies that the organization has participated in any cablegrams to the Matson Navigation Co. or indulged in any newspaper controversy. The only expression previously presented on the authority of the organization was published on Jan. 19, '09.

The official secretary of the organization stated this morning that the marine engineers of Honolulu as an organization are utterly opposed to any suspension of the coastwise shipping laws applied to Honolulu even in a modified form. They believe that the action would be but the entering wedge for subsequent inter-island traffic and extension to freight traffic.

"The engineers have not taken this matter as a sentimental standpoint, but as a bread-and-butter policy. Their condition under the present terms is good and prosperous and their relations with their employers are amicable and satisfactory. They are, therefore, utterly opposed to any change that will put their services into competition with foreign labor.

"The marine engineers of this port are all licensed officers of the United States and as such their services are subject to demand by the Navy Department in time of war if needed. For this reason alone they are bound to uphold the flag and commerce under it."

HILONIAN SAILS FOR THE PACIFIC COAST

Having aboard 1550 tons of white refined sugar and 1550 tons of raw sugar, 2295 bunches of bananas, 2500 cases of canned pineapples, 750 cases of fresh pineapples, 200 tons of rice, and considerable miscellaneous cargo, the Matson liner Hilonian, Captain Johnson, left here this morning at 10 o'clock for San Francisco.

Her passenger list was rather small but those passengers who went on the ship looked very happy as they stood on deck, bedecked with carnation and lilac leis. As the Hilonian headed for her destination the Hawaiian band played "Aloha Oe."

U.S.S. SUPPLY WILL REACH PORT TONIGHT

The U. S. S. Supply will arrive off port tonight. A wireless message was received this afternoon by the operator at Kahuku Point announcing the location of the vessel. The Supply comes here from Bretherton Navy Yard, Washington.

UNCLE SAM WANTS MORE WAIKIKI LAND

The United States is preparing for further condemnation proceedings for the purpose of acquiring land at Waikiki, though this time Uncle Sam is not coveting beach land, but wants a lot, about two acres in area, on Kalakaua avenue, just Ewa of the Le Gros place. The lot is known as the Keiki land, but the names of the present owners have not been ascertained.

Since the City and County granted the United States a right-of-way along the Saratoga road, the men of the Engineer Corps have been very busy, and it seems as if the military railroad which they propose to build from the Rapid Transit turn down to the beach will be completed in almost no time. The rails and the ties are already on the ground and are ready to be laid.

WIPER WANTS \$2000 DAMAGES

The steamer Hilonian was this morning plastered with a libel for damages by Marshall Hendry, but was released on a \$3000 bond furnished by E. D. Tenney and Chas. Atherton. The libel was brought by Joseph Thys. He shows that he was shipped as a wiper in the Hilonian to make the trip from San Francisco to Honolulu and back, but was hurt by a boat which fell against his hand, when he was trying to move it under the orders of the third mate. Thys shows that the accident was due to the fact that the boat fastenings were insecure, and that the company was guilty of breach of contract in that it did not return him to San Francisco. He claims that he has been incapacitated from work ever since the accident, which took place on Jan. 15.

A trio of Muscovy ducks are advertised for sale. See ad. this issue.

An automobile muffler is advertised as lost. Finder will receive reward if returned to von Hamm-Young Garage.

The crew of the schooner Helene was signed this morning before Shipping Commissioner Almy and the craft will sail for San Francisco early tomorrow morning.

The Irngard began loading sugar at 1 o'clock this afternoon. Just as soon as the cargo is taken on board, Captain Christenson will hoist sail and depart for San Francisco.

FOR SALE.

LEGISLATURE IN GILLETTE URGES THREE WEEKS JAPANESE CENSUS

W. O. Smith, President of the Senate; William Savidge, Secretary; H. L. Holstein, Speaker of the House.

This is one of the tentative states for the principal officers of the Legislature. It was stated this morning that a good number, if not a majority, of the Republican country members of the Legislature will be in town a full two weeks before the law-making body meets in order to get in line with things generally and have the preliminaries settled.

Meanwhile the committee of the Republican party is at work framing the bills that deal with platform promises, and these should be complete in a comparatively few days.

The Legislature convenes on February 17, three weeks from tomorrow.

There has been much correspondence among the members of the Legislature and it is presumed that when the sessions begin to gather they will

have their minds pretty well made up. The question of whether W. O. Smith shall be the President of the Senate is largely to be determined by answering the question of where he can be of the most use. There is no doubt a majority and more are ready to elect Mr. Smith to the Chair in the Senate. Then the question arises regarding the chairmanship of the Judiciary Committee. Senator Knudsen is a lawyer by profession but it is not known that he is enthusiastic about occupying the position of law manager for the Senate. And there you are. For once the lawyers are scarce and lawmakers always think that they must have a lawyer, because, they reason, laws cannot be framed exclusively on common sense and good judgment. Senator Smith is understood to be ready to go where he will be of the most good.

In the House, Holstein appears to have an unopposed hold on the Speakership to which his experience

(Continued on Page 4)

BICKNELL NOW IN CYCLONE VORTEX

The only change that has developed during the last twenty-four hours in the salary demand dispute between the Board of Supervisors and the Mayor is the transfer of the immediate responsibility from the shoulders of His Honor to those of the City and County Auditor. The whole matter is now up to Bicknell, and very much up to him.

Bicknell has in his possession the salary demands, passed by the Board of Supervisors and countersigned by the Mayor, with a great big "If" in the whole proceeding. The employees want their pay and the Supervisors want them paid. Bicknell wants to pay them, but he wants to be very certain that the money is not coming out of his own pocket.

Under the regular order of things, as soon as the Auditor received the passed and countersigned demands, he would issue warrants on the Treasury. ***** place November 25, and asks that his expenses since that date be paid, as well as damages in the sum of \$2000. He also asks that the owners of the Hilonian be made to pay for his return passage to San Francisco.

SACRAMENTO, Calif., Jan. 26.—Governor Gillette sent a special message to the Legislature today in which he dealt vigorously with the anti-Japanese agitation. The Governor strongly advises against the proposed legislation antagonistic to the Japanese. He urges that the State authorities take a census of the Japanese and abide by National action.

EIGHT JURORS FOR CALHOUN
SAN FRANCISCO, Calif., Jan. 26.—Eight jurors subject to peremptory challenge have been secured for the trial of Patrick Calhoun for bribery.

NEWLANDS REELECTED
CARSON, Nev., Jan. 26.—Francis G. Newlands was today reelected United States Senator from Nevada.

DE CEW APPOINTED
WASHINGTON, D. C., Jan. 26.—Charles De Cew was today appointed postmaster for Wailua.

CHEERED THEIR CAPTAIN
NEW YORK, N. Y., Jan. 26.—Captain Sealy, who commanded the White Star liner Republic, sunk in collision at sea, arrived here today. He was given an ovation by friends and passengers of his ship, who attest to his bravery and cool judgment in the recent disaster.

RUSSIA CAN'T GET ITS POLITICAL ENEMY
WASHINGTON, D. C., Jan. 26.—Secretary of State Root has refused to grant the extradition of Rudowicz, the Russian charged with political crimes.

WATSON HINTS AT DISBARMENT

**Peculiar Will Making In
Lazarus Estate
Matter**

A lively will contest in the matter of the estate of Kaulimakaole Lazarus is going on before Judge Robinson today. The deceased lady left some real estate on Beretania street, near Alapai, valued at about \$4000, to Madeline and Eleazar Lazarus, and the will is being contested by Alexander Lazarus, Esther Juon, Joe

Clark, and Naomi Lazarus. An interesting point was brought up when E. M. Watson, counsel for the contestants, examined an old Hawaiian lawyer and business agent, Henry Maui, who had drawn up the will. Watson asked Maui what fee he had received for his services, and W. W. Thayer, appearing for the other side, immediately objected.

"I want to show that this lady received as a fee \$3 and a calabash," said Watson, "and that the testament came back soon afterwards and demanded that the calabash be returned, as she was drunk when she gave it. This would show that she was not competent to make a will at the time, and the lawyer who assisted a person in making a will under such conditions, and was paid a fee, should be disbarred."

The question was not allowed on the ground that it was not proper cross-examination.

AGED BRIDE WAS BADLY TREATED

Kahaleki Keawemauhi has filed a libel for divorce against Keawemauhi, which presents several interesting features. She shows that the marriage took place last April, she being at the time a widow of 63 years, possessing considerable property at Wailua, while the libellee had nothing except what he earned as a common laborer.

Immediately after the marriage he moved from Lale to Wailua, but love's young dream proved a delusion as far as the bride was concerned. She alleges that her spouse beat her, ordered her out of her own house and treated her so rudely that his conduct became a common scandal. Further-

more, he never contributed toward her support, and his frequent promises to reform, following upon each punishment, were always broken. The libellant asks for an absolute divorce.

Joseph J. Fern, Jr., son of the Mayor of Honolulu, was this morning sentenced to serve two years in the Reformatory School. Young Fern, in company with two other boys, was arrested on a charge of stealing eggs from a Chinese.

The defendant in the case of H. T. Mills vs. J. D. Mendonca has filed petition to the Supreme Court writ of error. A judgment for \$3000 was rendered against him.

THE STEAMER W. G. Hall returned from Kauai today, bringing passengers and 4500 bags sugar, 526 cases pineapples, 89 bags taro, 4 bags coconuts, 32 packages sundries, 1 automobile.
